

2007-2008 JUNIOR NEWS (#4) -- Mar. 4, 2008

VIRGINIA TECH COLLEGE OF ENGINEERING: Junior – year math and science students are invited to attend Virginia Tech’s annual Engineering Open House on Monday, April 7, 2008. Included in the day-long Engineering Open House will be presentations by engineering faculty and sessions covering information about admissions and specific engineering requirements. The departments in the College of Engineering, as well as various other student organizations, will have displays. Also, Virginia Tech students and faculty will be available to answer questions.

It is our hope that you and your students will take full advantage of this opportunity to visit Virginia Tech. While the cost of lunch is not provided in the program, we invite you to try our on-campus facilities or take advantage of the local restaurants in downtown Blacksburg. There is a unique and hospitable relationship between the university and the town....you will feel right at home whether on or off campus!

Please plan to join us on April 7th from 8:30 am until 3:30pm for our Engineering Open House. This will be an excellent opportunity to learn about engineering and to visit the Virginia Tech campus.

Registration is easy and will be available March 1st. Please complete the online RSVP by March 21, 2008.

1. Go to <http://www.eng.vt.edu/EOH>
2. Select “Click Here to Register a High School Group”
3. Complete the form and press “Submit”
4. Instruct each student in your group to go to the same page and complete the information under “Click Here to Register as a Student.” They must do this if they want to register for a lab tour.

If students plan to attend alone, they may individually register, and we will correspond with them directly. After registration closes, additional information will be posted, including maps and a detailed brochure of the schedule on the following website: www.eng.vt.edu/EOH.

Please visit <http://www.eng.vt.edu> for more information on the College of Engineering. For Hotel and restaurant accommodations in the area, please visit <http://www.bev.net/visitors/lodgedine.php>. If you have any questions, please do not hesitate to contact Sara Matrangola at (540) 231-2226 or EngrRecr@vt.edu.
